TECHNICAL SPECIFICATIONS

pH Value	5.5 - 6.8
Electrical Conductivity (EC Value)	<0.5ms/cm
Coir Ageing	3+ months
Sand	<3%
Sieve	<6mm
Moisture	13-20%

HOW TO USE:

Remove all packaging and recycle.

Simply put your compressed Coco Coir Peat Brick in a container. Add water.

Let it sit until the water is absorbed (~20min)

APPROXIMATE USE OPTIONS

Each 5kg dried Coco Grow block expands to make 75 litres.

This is enough to cover **1.3 square metres** (1.6 square yards)

of soil at a depth of 5cm (2").

Fluff it up and you are ready to start planting!

STORAGE & USE INSTRUCTIONS

Keep the dried Coco Grow block somewhere cool and dry until you are ready to use it.

Use in a well ventilated place and avoid breathing in any dust.

SUSTAINABILITY

- → 100% Peat Free, made from 100% Natural Coconut husks.
- After harvesting, it is stored, ground, washed, dried, and compressed.
- Coco Coir is a natural by-product of the coconut farming industry and causes minimal impact on the environment
- lacktriangle It is the most environmentally friendly alternative to peat moss
- ★ Eco-friendly, recyclable, easy to carry packaging
