

# COCO CHIP™

## PEAT FREE MULCH COMPOST

*Our peat free mulch is a 100% natural made from peat free coir husk chips. Coir mulch helps retain soil moisture and reduces weed growth by up to 90%. It also helps deter pesky slugs and snails because of its texture. As it slowly breaks down in the soil, it increases soil porosity, enriches it, and improves soil structure.*

### FEATURES

- ✦ 100% peat-free
- ✦ pH and nutrient balanced
- ✦ Made from natural renewable resources, biodegradable
- ✦ Easy to handle, uniform in composition, odourless
- ✦ Provides good drainage, good aeration
- ✦ Free of bacteria and weed seeds
- ✦ Absorbs water readily and re-wets easily reducing the need for wetting agents

### BENEFITS

- ✦ 100% natural
- ✦ Sustainable and environmentally friendly
- ✦ Improves soil structure
- ✦ Suppresses weed growth
- ✦ Deters slugs and snails
- ✦ Reduces evaporation and water loss
- ✦ Protects and strengthens root systems
- ✦ Can be used repeatedly
- ✦ Lightweight and easy to carry

### USES

- ✦ Spread around newly planted perennials, shrubs and trees
- ✦ Keeps beds and borders neat and tidy
- ✦ Decorative finish to pots and containers
- ✦ Create natural looking woodland pathways

### TECHNICAL SPECIFICATIONS

pH Value	5.5 - 6.8
Electrical Conductivity (EC Value)	<0.5ms/cm
Coir Ageing	3+ months
Sand	<3%
Sieve	<6mm
Moisture	13-20%

### HOW TO USE:

Remove all packaging and recycle.

Simply put your compressed Coco Coir Peat brick in a container. Add warm water.

Let it sit until the water is absorbed (~20min)

Fluff it up and you are ready to start planting!

### STORAGE & USE INSTRUCTIONS

Keep the dried Coco Chip block somewhere cool and dry until you are ready to use it.

Use in a well ventilated place and avoid breathing in any dust.

### APPROXIMATE USE OPTIONS

Each dried 4.5L Coco Chip block expands to make **60 litres** of chippings.

This is enough to cover:

**0.9-1.3 square metres** (1.1 - 1.6 square yards) of soil at the recommended depth of **5 - 7.5cm** (2 - 3").

When used as a covering for containers, it is enough for up to **16 x 45cm** (18") diameter and **9 x 60cm** (2') containers.

### SUSTAINABILITY

- ✦ 100% Peat Free, made from 100% Natural Coconut husks.
- ✦ After harvesting, it is stored, ground, washed, dried, and compressed.
- ✦ Coco Coir is a natural by-product of the coconut farming industry and causes minimal impact on the environment
- ✦ It is the most environmentally friendly alternative to peat moss
- ✦ Eco-friendly, recyclable, easy to carry packaging

### PACKAGING

#### OUTER BOX & LABELS:

Mixed FSC certified corrugated boxes and product labels, widely recycled

#### INNER WRAP:

Where applicable, LDPE Shrinkwrap, recyclable where facilities exist
